

Action Plan for Energy Savings and CO₂ Reduction

Company name: Titan Wind Energy (Europe) A/S

Date of approved Energy Audit: 27-08-2025

Contact person: Erling Mathiasen, Maintenance and HSE Manager

Background

In accordance with Executive Order no. 761 of 21 June 2024 on Energy Audits and Energy Management Systems, the company has conducted an Energy Audit that identifies opportunities for energy savings and reductions in greenhouse gas emissions.

Purpose

The purpose of this action plan is to:

- Increase energy efficiency in operations and maintenance
- Reduce CO₂ emissions from the company's activities
- Support the company's HSE and sustainability strategy

Measures

Measure	Description	Expected savings	Timeline
Conversion to heat pumps	Phasing out gas boilers	1.810 kWh/year	Q2 2028

Implementation Plan

The measures are prioritized based on technical and economic feasibility and will be implemented in collaboration with operations and maintenance.

Remarks

Parts of the action plan are exempt from disclosure pursuant to the Trade Secrets Act.
